Event Dates:

September 8–12, 2026

What is the Mobility Cup?

The Adaptive Sailing Association of BC (ASABC) and the Royal Vancouver Yacht Club are honoured to host the 35th annual Mobility Cup, bringing the regatta back to where it all began in Vancouver, British Columbia.

The 2026 Mobility Cup is a prestigious adaptive sailing competition that welcomes sailors with disabilities from across Canada and beyond, competing in boats specially designed for individuals with reduced mobility. This milestone year celebrates 35 years of inclusive sailing — a legacy of empowerment, innovation, and community.

We invite sponsors to partner with us in bringing the 2026 Mobility Cup to life here in Vancouver. Your support will help cover event costs and open new opportunities for sailors with disabilities to experience the challenge and joy of competitive sailing.

The event will bring together up to 50 sailors and nearly 100 volunteers from across North America. Throughout the week, participants will enjoy shared meals, from a casual barbecue to a formal banquet. Sponsors will have the chance to connect directly with the people who make the event possible — the sailors, volunteers, and community.

We offer a range of sponsorship opportunities to match your organization's goals and community values.
